JACOB ATAKORA

React / Next.js Developer | Frontend Web Developer

Dallas, TX | Atakoraj@ymail.com | (682) 429-6577

Portfolio: react-resume-eight-delta.vercel.app | GitHub: github.com/Mixtapejacob

PROFESSIONAL SUMMARY

React and Next.js developer experienced delivering responsive, production web features with TypeScript, JavaScript, and CSS. Built authenticated user flows, profile management, support interfaces, and API-connected pages for a live application. Comfortable collaborating through Git branches, pull requests, and code reviews; also delivered client-facing websites from requirements through Vercel deployment.

TECHNICAL SKILLS

Frontend: React, Next.js (App Router), TypeScript, JavaScript, HTML5, CSS3, CSS Modules, Bootstrap, Responsive Design

Backend & Data: Node.js, REST APIs, Supabase, PostgreSQL, Python, FastAPI

Workflow & Tools: Git, GitHub, Pull Requests, Vercel, AWS Amplify, n8n

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer | Candidate Experience (Remote) | 2025–Present

- Built React and Next.js profile-management features backed by Supabase and PostgreSQL, including API-driven create, read, update, and delete workflows.
- Implemented authentication-related experiences, including login, password reset, onboarding, and session-aware user flows.
- Developed responsive employer-facing dashboard pages and connected frontend views to API endpoints for account-specific data.
- Built support experiences including a categorized help widget, FAQ workflows, and a validated contact form with email routing.
- Integrated n8n chatbot workflows and contributed changes through feature branches, pull requests, and code reviews.

SELECTED PROJECTS

Playmaker Xpress | Client Website | Live Demo | GitHub Repository

- Delivered a responsive athletic-training website using Next.js, React, TypeScript, and CSS Modules, from client requirements to deployment.
- Created reusable navigation, services, and contact components and a consultation inquiry workflow with prefilled email requests.

The Ministry | Personal Project | Live Demo | GitHub Repository

- Built and deployed a multi-page Next.js and React website with reusable components, responsive navigation, and mobile-friendly layouts.
- Structured Home, About, Teachings, Mission, Contact, and Give pages for maintainability; managed version control and Vercel deployment.

EDUCATION & TRAINING

Certified Web Developer | CareerFoundry | 2023–2024

Associate of Science | Mountain View College | 2016–2018

Computer Science Coursework | Wayland Baptist University | 2018–2019
